

Designed by Physicians, for Physicians and Advanced Practice Providers

TURBOdoc does **all the heavy lifting** for all your Telemedicine needs. It is the **only complete EHR** designed specifically for Telemedicine, eliminating the frustration and expense of having to utilize multiple applications. This **web-based** Telemedicine solution includes:

- Templated History and Physical with rapid point and click documentation
 - Only solution with appropriate medical content for more than 130 conditions
 - Eliminates dictation and typing
 - Generates legible prose medical record which is securely stored
 - Optimizes documentation consistency and compliance with billing and medical-legal requirements
 - e-Prescription and Discharge Instructions with secure electronic transfer
 - Follow-up referrals
 - Consultant Module with appropriate medical content for over 75 specialties
 - Optional Coding Assist Module
- ...and TURBOdoc is branded with your practice name and logo.
